1. NATURE OF OPERATIONS

Rocky Mountain Liquor Inc. (“Rocky Mountain Liquor” or “RML”) is incorporated under the Canada Business Corporations Act, and is a tier one issuer with its common shares listed on the TSX Venture Exchange (under the symbol “RUM”). The Company’s registered corporate office is located at 11478 149 Street, Edmonton, Alberta, T5M 1W7.

Rocky Mountain Liquor is the parent to a wholly owned subsidiary, Andersons Liquor Inc. (“Andersons”), acquired through a reverse takeover on Dec 1, 2008.

As at Jun 30, 2017 Andersons operated 41 retail liquor stores in Alberta, selling beer, wine, spirits, ready to drink products, as well as ancillary items such as juice, ice, soft drinks and giftware.

These interim consolidated financial statements have been approved for issue by the Board of Directors on Aug 24, 2017.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, “Interim Financial Reporting” (“IAS 34”), as issued by the International Accounting Standards Board (“IASB”). They have been prepared using the accounting policies that were described in Note 2 to the Company’s annual consolidated financial statements for the year ended Dec 31, 2016. These interim consolidated financial statements should be read in conjunction with the Company’s 2016 annual consolidated financial statements.

The preparation of these interim consolidated financial statements, in conformity with IFRS, requires management to make judgments, estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. However, uncertainties about these assumptions and estimates could result in outcomes that would require a material adjustment to the carrying amount of the asset or liability affected in the future.

Estimates are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. In preparing these interim financial statements, the significant judgments made by management in applying the Company’s accounting policies and the key sources of estimation uncertainty were the same as those that applied to the annual consolidated financial statements for the year ended Dec 31, 2016.

The Company’s operations are seasonal in nature, and results for any quarter are not necessarily indicative of the results that may be expected for the full year due to seasonal variations in sales levels. The Company historically experiences a higher level of sales in the third and fourth quarters, while the first and second quarters experience lower sales due to shopping patterns. Occupancy related expenses; certain general and administrative expenses, depreciation and amortization, and interest expense remain relatively steady throughout the year.

Certain comparative figures have been changed to conform to the current years’ presentation.

During the three month period ended Jun 30, 2017 the Company paid rents of \$15,240 (2016 - \$15,240), and \$30,480 for the six month period (2016 - \$30,480) in respect of two (2016 – two) retail liquor stores, to privately held companies in which Peter J. 6. CONVERTIBLE DEBENTURES

On Apr 1, 2016 the Company received debenture holder approval to restructure the terms of the debenture originally issued Apr 13, 2011 (the "original debenture"). The Company restructured the \$8,076,000 outstanding unsecured subordinated convertible debenture (the "Debenture") on Apr 30, 2016 as follows: the maturity date of the Debenture was extended to Apr 30, 2021; the interest rate payable semi-annually was reduced to 7.50% from 7.75%; and the Debenture is convertible to common shares of the Company at a conversion price of \$0.25 per common share, reduced from \$0.50.

The original debenture was derecognized and the revised Debenture was measured at fair value on the date of restructuring using an effective interest rate of 13.17%. The equity component of the Debenture was decreased by \$17,062 and \$240,383 was charged directly to accumulated deficit.

10. STOCK OPTION PLAN

Stock option plan ("Option Plan")

The maximum number of common shares that may be reserved for issuance under the Option Plan is 2,500,000 shares.

The exercise price of each option is determined on the basis of the market price at the time the option is granted. If the option has a discount to market price as an incentive for early redemption the exercise price may not be less than the discounted market price as defined by the policies of the TSX Venture Exchange ("TSXV"). For options that have no early redemption incentives, the exercise price may not be less than the closing price of a Rocky Mountain Liquor common share on the TSXV on the last trading day before the day the option is granted. The shares purchased on the exercise of an option must be paid for in full at the time of exercise. The Company operates equity-settled compensation plans. When the options vest in installments over the vesting period, each installment is accounted for as a separate arrangement.

Management/Employee Options

500,000 incentive options were issued under the Option Plan Jan 17, 2017, representing 0.9% of the outstanding common shares. 300,000 are exercisable per the below vesting schedule and 200,000 are exercisable Jan 18, 2018 if the unadjusted closing price per share for any 10-consecutive trading day period between Oct 20, 2017 and Jan 17, 2018 is equal to or greater than \$0.16. 13. FINANCIAL INSTRUMENTS

For cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities, and bank loan, the carrying value approximates fair value due to the short-term nature of the instruments.

The loans receivable have a fair value equivalent to the carrying value, and are carried at the prevailing interest rate. The convertible debenture has a fair value equivalent to the carrying value, as the discount rate remains unchanged.

As at Jun 30, 2017 and Dec 31, 2016 the classification of the Company's financial instruments as well as their carrying amounts and fair values, are shown in the table below.

Fair value measurements

For financial instruments recognized in the statement of financial position at fair value, the Company is required to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following table presents the Company's financial instruments recognized in the interim consolidated statement of financial position at fair value:

	Jun 30, 2017		Dec 31, 2016	
	Level 1	Level 2	Level 1	Level 3
